Rule 930-X-1-10. Rules of Professional Conduct / Grounds for Discipline.

(1) It is unprofessional and a violation of the administrative code to represent conflicting interests; except by express consent of all concerned, given after a full disclosure of the facts. Within the meaning of this rule, a member represents conflicting interests if employed by a buyer to inspect an animal for soundness when he or she accepts a fee from the seller. Acceptance of a fee from both the buyer and the seller is prima facie evidence of fraud.

(2) It is the right of any veterinarian without fear or favor to give proper advice to those seeking relief against unfaithful or negligent veterinary services, generally after communication with the veterinarian of whom the complaint is made. However, any deceptive disparagement of the practice of a veterinarian is a violation of the administrative code.

(3) Veterinarians shall expose without fear or favor before the proper tribunal of the Alabama State Board of Veterinary Medical Examiners corrupt or dishonest conduct in the profession.

(4) A veterinarian upon his or her own responsibility must decide what employment he or she will accept in his or her professional capacity and what course of treatment will be followed once he or she has accepted employment. The responsibility for advising questionable or unusual treatment rests upon the veterinarian. No veterinarian shall give any service or advice involving disloyalty to the law. A veterinarian must also observe and advise his or her client to observe the state and federal law. A veterinarian shall not give any service or advice directly towards the corruption of any person or persons exercising a public office or private trust or deception or betrayal of the public.

(5) Each veterinarian shall have posted or displayed in his or her office or place of employment in full view of his or her clients, his or her original Alabama license to practice veterinary medicine, current year's display license and premise permit. Alabama State Controlled Substance Registration shall be posted in or near controlled substance cabinet or safe for inspection by state and federal representatives.

(6) Veterinarians shall exercise the same degree of care, skill and diligence in treating patients as are ordinarily used in the same or similar circumstances by members of the veterinary medical profession in good standing in the locality or community in which they practice or in similar communities.

(7) A licensed veterinarian shall not use or display any college degree, certificate or title granted by any institution not approved by the Alabama State Board of Veterinary Medical Examiners.

- (11) A licensed veterinarian in this state shall not issue a certificate of health unless he or she shall know of his or her own knowledge by actual inspection and appropriate test of the animals that said animals meet the requirements of the issuance of such certificate.
- (12) It is professionally dishonest for licensed veterinarians to guarantee a cure. A veterinarian must avoid bold and confident assurances to a client, especially where the employment may depend upon such assurance.
- (13) A licensed veterinarian shall treat all animals entrusted to him or her by his or her clients in keeping with the professional standards of humane treatment and care.
- (14) A licensed veterinarian shall conduct his or her practice on the highest plane of honesty, integrity, and fair dealing with his or her clients, in time and services given, and the amount charged for his or her services, facilities, appliances and drugs.

- (18) Any veterinarian who uses a present or past position or office of trust to deceptively create for him or herself any individual professional advantage or to coerce or to deceive the public shall be in violation of the Rules of Professional Conduct. This is not to prohibit a licensed veterinarian from providing educational information to the public as a practitioner or a member of a veterinary association.
- (19) A licensed veterinarian is required to maintain his or her entire premises in such a state of sanitation as to comply with the public health requirements of the city and county in which it is located, the public health laws of the State of Alabama, and the Board's requirements for maintenance of a premise permit.
- (20) Upon complaint and within its discretion, the Board may revoke or suspend the license of or otherwise discipline any licensed veterinarian under this rule. Grounds for disciplinary action shall include, but not be limited to, the following:
- (a) Practicing veterinary medicine without holding an active license to practice veterinary medicine.
 - (b) Using the name or title "licensed veterinarian" if the person has not been licensed pursuant to this chapter.

- (t) Fraud, deception, misrepresentation, dishonesty or illegal practices in or connected with the practice of veterinary medicine.
- (u) Conviction of cruelty to animals.
- (v) Revocation of a license to practice veterinary medicine by another state, territory or district of the United States, but only if the grounds for revocation in such other jurisdiction would also result in revocation of the practitioner's license in this state.
- (w) A violation of the Rules of Professional Conduct as prescribed in the Alabama Veterinary Practice Act or the Administrative Code.
- (x) Performing or prescribing unnecessary treatment.
- (y) Permitting or allowing another to use a veterinarian's license for the purpose of treating or offering to treat sick, injured or afflicted animals.

(g) If for reasons other than personal interest, bias, or like causes a Board member is unable to continue the hearing, and a quorum is present, the hearing will be resumed except:

(1) If continuation of the hearing would result in substantial prejudice, for whatever reasons, to the rights of the parties, either a new hearing will be initiated or the case will be dismissed without prejudice.

(h) If a member of the Board is unable to continue the hearing either by disqualification or any other reason and the Board is unable to reach a quorum, the Governor of the State of Alabama shall appoint as many ex-officio members as is necessary to reach a quorum from a list of three persons submitted for each place by the Alabama Veterinary Medical Association. Such

ex-officio members shall serve on the Board only for that hearing for which they were appointed but may be reappointed for later hearings if necessary. The hearing will be resumed except:

- (1) If oral testimony has already been given, and it is determined by the new ex-officio members that the viewing of such witness is an important element of the case, that part of the testimony and evidence will be repeated.
- (2) If continuation of the hearing would result in substantial prejudice, for whatever reasons, to the rights of the parties, either a new hearing will be initiated or the case will be dismissed without prejudice.
 - (i) The determination of whether continuation of the case will result in substantial prejudice is to be made by the Board.
 - (j) Notification of decisions of disqualification, continuation of the hearing, re-hearing of a part or all of a contested case or dismissal of a case without prejudice, together with a statement of reasons therefore, will be part of the record of the case, and communicated to all parties promptly.
- (3) Notice shall be sent by certified mail, return receipt requested, to the most current address provided to the Board by the veterinarians to be notified. Notices of administrative hearings of the Board:
 - (a) shall give the name, position, address and telephone number of a person in the Board office to contact for further information or discussions;
 - (b) shall include a statement that failure to inform the Board office within twenty-one days after notice is received of intent to appear at any hearing or pre-hearing conference scheduled in the hearing notice will be deemed a waiver of the right to a hearing;
 - (c) shall advise the respondent that he or she is entitled to be represented by counsel, to cross-examine witnesses and to present evidence in his or her own behalf;
 - (d) may give notice of date and place for a pre-hearing conference, if any;
 - (e) may schedule the date of the hearing;
 - (f) may include any other information deemed relevant to informing the party or parties as to the procedure of the hearing;
- (4) Failure to appear:
 - (a) If a party fails to appear in a contested case after proper service of notice, the Board, if no adjournment is granted, may go ahead with the hearing and make its decision in the absence of the party.
 - (b) Continuances, adjournments and like dispositions will be granted only in compelling circumstances.
 - (c) If a hearing is conducted or a decision is reached in an administrative hearing in the absence of a party, that party may file a written petition with the Board for a reopening of the case.

(d) Petitions for reopening a case will not be granted except if the petitioner can show that the reasons for his or her failure to appear were justifiable and unavoidable and that fairness requires reopening the case. Such petitions, however, will have no effect on the running of the thirty day period for seeking judicial review as provide in the Veterinary Practice Act.

(e) The decisions of the Board will be in writing and a copy will be sent to the petitioner and made a part of the record of the hearing.

(5) Simplification of issues:

(a) Except as prohibited by statute, the parties to a contested case, including the Board, may agree in advance to simplify the hearing by:

- (1) decreasing the number of the issues to be contested at the hearing;
- (2) accepting the validity of certain proposed evidence;
- (3) accepting the findings in some other case with relevance to the case at hand;
- (4) or agreeing to such other matters as may expedite the hearing.

(b) All investigations, whether upon complaint or otherwise, shall be initiated and conducted by the Board as provided in Chapter 930-X-1-.17.

(1) Any member of the Board in matters under investigation or in any disciplinary proceeding may administer oaths and affirmations and compel by subpoena the attendance of witnesses and the production of any books, records, papers or documents. Subpoenas shall be issued by the Executive Director of the Alabama State Board of Veterinary Medical Examiners.

(2) Subpoenas shall clearly indicate on their face that the subpoenas are issued in connection with a confidential proceeding under these rules and that it is regarded as contempt of the Board enforceable by a court or grounds for discipline under these rules for a person subpoenaed to breach in any way the confidentiality of the proceedings. It shall not be regarded as breach of confidentiality for a person subpoenaed to consult with an attorney.

(3) Any circuit court may, upon proper application, enforce the attendance and testimony of any witness and the production of any documents so subpoenaed. Subpoena and witness fees and mileage shall be the same as in the circuit court in civil cases.

(4) Any attack on a subpoena so issued shall be heard and determined by the Board or by the court wherein enforcement of the subpoena is being sought.

Rule 930-X-1-22. Revocation of License by Consent of Licensee.

(1) A licensee, who is the subject of an investigation into, or a pending proceeding involving, allegations of misconduct, may consent to the revocation of his or her license, but only by delivering to the Alabama State Board of Veterinary Medical Examiners an affidavit stating that he or she desires to consent to revocation and that:

(a) His or her consent is freely and voluntarily given; he or she is not being subjected to coercion or duress; he or she is fully aware of the implications of submitting his or her consent; and;

(b) He or she is aware that there is presently pending an investigation into, or proceeding involving, allegations that there exist grounds for his or her license revocation, the nature of which he or she shall specifically set forth.

(c) He or she is aware that Board's jurisdiction shall not be divested by revocation by consent.

(2) Upon receipt of the required affidavit, the Alabama State Board of Veterinary Medical Examiners may enter an order removing the license of the licensee on consent.

(3) The order removing the licensee's license on consent shall be a matter of public record. However, the affidavit required under (1) above shall not be publicly disclosed or made available for use in any other proceeding except upon order of the Board.

Rule 930-X-1-.23. Reciprocal Discipline.

(1) All licensees' subject to the provisions of this Rule shall, upon being subjected to other professional disciplinary action in another jurisdiction, promptly inform the Board. Upon being informed that a licensee subjected to the provisions of these Rules has been subject to discipline in another jurisdiction, the disciplined licensee shall get a certified copy of such disciplinary order and file it with the Board.

(2) Upon receipt of a certified copy of an order demonstrating that a licensee licensed to perform in this state has been disciplined in another jurisdiction, the Board shall forthwith issue a notice directed to the licensee containing:

(a) A copy of said order from the other jurisdiction; and

(b) An order directing that the licensee inform the Board, within twenty-eight days from service of the notice, of any claim by the licensee predicated upon the grounds set forth in section (4) hereof that the imposition of the identical discipline in this state would be unwarranted and the reasons therefore.

(3) In the event the discipline imposed in the other jurisdiction has been stayed there, any reciprocal discipline imposed in this state shall be deferred until such stay expires.

(4) Upon the end of forty-two days from service of the notice issued pursuant to the provisions of (2) above, the Board shall impose identical discipline, unless the Board finds:

(a) That the procedure was so lacking in notice of opportunity to be heard as to constitute a deprivation of due process; or

(b) That there was such an infirmity of proof establishing the misconduct as to give rise to the clear conviction that the Board could not, consistent with its duty, accept as final the conclusion on that subject; or

(c) That the misconduct there established either does not constitute grounds for discipline in this state or warrants substantially different discipline here.

Where the Board determines that any of said elements exist, it shall enter such other order as it deems appropriate.

(5) In all other respects, a final adjudication in another jurisdiction that a licensee has been guilty of misconduct shall establish conclusively that misconduct for purposes of a disciplinary proceeding in this state.

Rule 930-X-1-.24. Licensees Whose Licenses Have Been Suspended or Revoked.

(1) Orders imposing suspension or license revocation shall be effective forty-two days after entry unless a different period is specified in the order of suspension or license revocation. The licensee, whose license has been revoked after entry of the license revocation or suspension order, shall not accept any new client or work as a veterinarian in any capacity. However, during the period from the entry date of the order and its effective date, he or she may wind up and finish, on behalf of any client, all matters which were pending on the entry date.

(2) Within fourteen days after the effective date of the license revocation or suspension order, the licensee, whose license has been suspended or revoked shall file with the Board an affidavit showing that he or she has fully complied with the provisions of the order and with these rules to which he or she is admitted to practice. Such affidavit shall also set forth the residence or other address of the licensee whose license has been revoked or suspended where communications may thereafter be directed to him or her.

(3) The Board shall cause a notice of the revocation or suspension to be published in the official state veterinary publication and in a newspaper of general circulation in each county of the State of Alabama in which the disciplined veterinarian maintained an office for the practice of veterinary medicine or the disciplined veterinary technician or euthanasia technician was employed.

(4) A licensee whose license has been suspended or revoked shall keep and maintain records of the various steps taken by him or her under these rules so that, upon any later proceeding instituted by or against him or her, proof of compliance with these Rules and with the revocation or suspension order will be available. Proof of compliance with these rules shall be a condition precedent to the filing or consideration of any petition for reinstatement.

(5) The perfection of an appeal shall operate as a stay of any discipline, sanction, duty, requirement or other act imposed or required by these rules, and such stay shall continue until the appeal is finally determined; provided, however, the Board may, for good cause shown, petition the court to terminate the stay before the final determination of the appeal.

Rule 930-X-1-.25. Reinstatement.

(1) No licensee suspended for more than three months or whose license has been revoked or who has voluntarily resigned or surrendered his or her license may resume practice until reinstated by order of the Board.

(2) A person who has been suspended for more than three months may not apply for reinstatement until the period of suspension has been terminated. A person who has had his or her license revoked after hearing or by consent may not apply for reinstatement until the end of at least one year from the effective date of the revocation or surrender of license.

(3) Petitions for reinstatement by a licensee whose license has been revoked or suspended under this rule shall be filed with the executive director. Upon receipt of such petition by the Board, the executive director shall promptly set the petition for a hearing within twenty-eight days. At the hearing, the

petitioner shall have the burden of demonstrating by clear and convincing evidence that he or she has the moral qualifications to practice veterinary medicine, veterinary technology or euthanasia technology in this state and that his or her resumption of the practice of veterinary medicine, veterinary technology or euthanasia technology within the state will not be detrimental to the integrity and standing of the licensed veterinarians, veterinary technicians or euthanasia technicians in the state.

(4) Upon reinstatement, the Board shall transmit notice of such reinstatement to all parties to whom notice of discipline or transfer to inactive status due to disability were sent as provided herein.

Rule 930-X-1-.26. Proceedings in Which a Licensee is Declared to be Incompetent or is Alleged to be Incapacitated.

(1) Where a licensee has been judicially declared incompetent or has been voluntarily confined by judicial action on the grounds of incompetency or disability, the Board, upon proper proof of the fact, shall enter an order transferring such licensee to disability inactive status. A copy of such order shall be served upon such licensee and his or her guardian, if any, and, if he or she has been committed to an institution, upon the director of such institution, in such manner as the Board may direct.

(2) Whenever a petition shall be filed to determine whether a licensee who is engaged in the practice of veterinary medicine, veterinary technology or euthanasia technology is incapacitated from continuing the practice of veterinary medicine, veterinary technology or euthanasia technology by reason of mental or physical infirmity or illness or because of addiction to drugs or intoxicants, such petition shall be referred to the Board. The Board shall provide for notice to the respondent of any proceedings in the matter and may appoint an attorney to represent the respondent if he or she is without adequate representation. The Board may take or direct such action as it deems necessary or proper to determine whether the licensee is so incapacitated, including the examination of the licensee by such qualified medical experts as the Board shall designate. If, upon due consideration of the matter, the Board concludes that the licensee is incapacitated from continuing to practice veterinary medicine, veterinary technology or euthanasia technology, it shall enter an order transferring him or her to disability inactive status on the ground of such disability. Any pending disciplinary proceeding against the veterinary shall be held in abeyance.

(3) If, during the course of a disciplinary proceeding, the respondent contends that he or she is suffering from a disability by reason of mental or physical infirmity, illness, or addiction to drugs or intoxicants which makes it impossible for the respondent to adequately defend himself or herself, the Board thereupon may in its discretion enter an order transferring the respondent to disability inactive status until a determination is made of the respondent's capacity to continue to practice veterinary medicine, veterinary technology or euthanasia technology in a proceeding started in accordance with the provisions of (2) above. If the Board shall determine that the respondent is not incapacitated from practicing veterinary medicine, veterinary technology or euthanasia technology, it shall take such action as it deems proper and advisable, including a direction for the resumption of the disciplinary proceeding against the respondent.

(4) No licensee transferred to disability inactive status under this rule may resume active status until reinstated by order of the Board. Any licensee transferred to disability inactive status under this rule shall be entitled to petition for reinstatement to active status once a year or at such shorter intervals as the Board may direct in the order transferring the respondent to disability inactive status or any modification thereof. Such petition shall be granted upon a showing by clear and convincing evidence that the licensee's disability has been removed and that he or she is fit to resume the practice of veterinary medicine, veterinary technology or euthanasia technology. Upon such application, the Board may take or direct such action as it deems necessary or proper to a determination of whether the licensee's disability

has been removed, including a direction for an examination of the licensee by such qualified medical experts as the Board shall designate. At its discretion, the Board may direct that the expense of such examination shall be paid by the licensee, and that the licensee establish proof of competence and learning in veterinary medicine, veterinary technology or euthanasia technology, which proof may include certification by the Board of his or her successful completion of an examination for admission to practice.

(5) If a licensee has been transferred to disability inactive status by an order in accordance with the provision of (1) above and, thereafter, has been judicially declared to be competent, the Board may dispense with further evidence that his or her disability has been removed and may direct his or her reinstatement to active status upon such terms as are deemed proper and advisable.

(6) In a proceeding seeking to transfer a licensee to disability inactive status under this rule, the burden of proof shall rest with the petitioner. In a proceeding seeking an order of reinstatement to active status under this rule, the burden of proof shall rest with the licensee seeking active status.

(7) The filing of a petition for reinstatement to active status by a licensee transferred to disability inactive status because of disability shall be deemed to constitute a waiver of any doctor-patient privilege with respect to any treatment of the licensee during the period of his or her disability. The licensee shall be required to disclose the name of every psychiatrist, psychologist, physician and hospital or other institution by whom or in which the licensee has been examined or treated since his or her transfer to disability inactive status, and he or she shall furnish the Board written consent to each to divulge such information.

Rule 930-X-1-.27. Confidentiality.

(1) All proceedings involving allegations of misconduct by or the disability of a licensee shall be kept confidential until and unless a decision for the imposition of public discipline or disability is made by the Board. Provided, however, where the decision is that the respondent licensee shall receive a public censure, this decision shall remain confidential until the time of appealing the decision shall have elapsed or until the conclusion of an appeal, if one is taken. There shall be no confidentiality if the respondent licensee requests that the matter be made public, or if the investigation is predicated upon a conviction of the respondent licensee for a crime or if in matters involving alleged disability, the Board enters an order transferring the respondent licensee to a disability inactive status pursuant to Chapter 930-X-1-.26. All participants in the proceeding shall maintain the confidentiality of the proceeding. This provision shall not be construed to deny access to relevant information to authorized agencies investigating the qualifications of candidates, or to other jurisdictions investigating qualifications for admission to practice, or to law enforcement agencies investigating qualifications for government employment.

(2) In cases of extreme notoriety, the Board may in its discretion, upon majority vote of the Board, authorize its president to make a brief statement to the media that the matters asked about are under investigation and outlining the procedures for the handling of grievances under the administrative code; provided that such release shall not disclose (by name, position, address or otherwise) the identity of any person involved in the investigation.

(3) This rule has no application to disclosure incident to service pursuant to Chapter 930-X-1-.20.

(1) Any interested person wishing to submit a petition requesting the adoption, amendment or repeal of a rule by the Board shall address a petition to the Board.

- (2) The Board's designate will determine whether the public interest will be served by granting the request. Before making this determination, the Board's designate may request additional information from the petitioner(s); he or she may contact interested persons likely to be affected by the proposed rule and request comments; he or she may use any other appropriate method for getting information on which to base his or her determination. He or she shall consider all the contents of the petition submitted plus any other information gotten by the means described herein.
- (3) The designate shall make a recommendation to the Board for the institution of rule-making proceedings or for the denial of the petition, as the case may be.
- (4) Within thirty days of submission of the petition, a final decision shall be given by the Board. If the decision is to deny the petition, the Board will notify the petitioner in writing stating the reasons therefore. If the decision is to grant the petition, the Board, within thirty days of submission, shall initiate a rule-making proceeding by issuing a rule-making notice, as provided in these rules.
- (5) Upon a determination to hold a rule-making proceeding, either in response to a petition or otherwise, the Board shall give notice to all interested persons of a public hearing on the proposed rule at least ten days before such hearing and at least twenty days before the adoption, amendment or repeal of the rule.
- (6) The Board shall transmit to all Alabama licensees' copies of all rule-making notices. Any other person or agency desiring to be placed on the mailing list for Board rule-making notices may file such requests in writing, furnishing his or her name and mailing address to the Board. The letter of request should state those subject areas within the authority of the Board for which he or she wants notice. The Board may require reasonable postage and stationary costs to be paid by persons receiving such notices.
- (7) Persons desiring information in addition to that provided in an individual rule-making notice may contact the Board. Any written communication should clearly indicate the rule-making proceeding which is subject of the inquiry.
- (8) Any persons desiring to present oral data, views, or arguments on the proposed rule must, at least five days before the hearing, file a notice with the Board. Notice of desire to appear may be waived, or failure to give notice may be excused, by the presiding officer, in his or her discretion. Any person permitted to make an oral presentation to the Board before or at the hearing is encouraged to submit a written copy of the presentation to the Board before or at the beginning of the hearing.
- (9) A request to make an oral presentation shall contain a clear reference to the proposed rule, a brief summary of the individual's views in respect thereto, and how long the individual desires to speak. Presentations shall be limited to fifteen minutes unless the Board prescribes some other time limit.
- (10) Upon receipt of the notice of a person's desire to present his or her views orally, the Board shall acknowledge receipt of the request and inform the person of the imposition of any limitations deemed necessary for a full and effective public hearing on the proposed rule.
- (11) The Board shall consider fully all written submissions respecting a proposed rule. Upon receipt of written comments, at least five days before the date of a rule-making hearing the Board will acknowledge receipt with an assurance that the comments will be carefully considered by the Board before a final decision.
- (12) The presiding officer at the hearing shall have complete control of the proceedings, including: extensions of any time requirements, recognition of speakers, time allotments for presentations, the right to question speakers, direction of the discussion and management of the hearing. The presiding officer, at

all times, will take care that each person participating in the hearing is given a fair opportunity to present views, data and comments.

(13) Any interested person desiring a concise statement of the principal reasons for and against the adoption of a rule by the Board and the factors that led to overruling the consideration urged against its adoption may submit a request to the Board.

(a) For purposes of subsection (1) of this chapter, an “interested person” shall be any person(s) whose rights, duties, or privileges might be affected by the adoption of the rule in question, or any group or organization of persons whose rights, duties or privileges might be affected by the rule.

(b) The request must be made in writing and submitted within thirty days after adoption of a rule.

(14) A record of all rule-making proceedings shall be maintained in the Board office for as long as the rule is in effect, and for five years following filing with the Administrative Procedures Division of the Alabama Legislative Reference Service. Such record shall contain: the original petition, the notice, all written memoranda and information submitted, and a record or summary of oral presentations, if any. Records of rule-making proceedings shall be available for public inspection during the regular office hours of the Board.

(15) If the Board finds that an imminent peril to the public health, safety, or welfare need adoption, amendment, or repeal of a rule, it may without notice or upon fewer than twenty days notice state in writing its reasons for that finding, and go ahead without prior notice or hearing, or upon any abbreviated notice and hearing that it finds practicable, to adopt an emergency rule. This rule shall be effective for a period of not longer than one-hundred twenty days.

(1) Any person substantially affected by a statute administered or rule promulgated by the Board may request a declaratory ruling as to either the manner in which a statute or rule applies to a given factual situation, if at all, or whether a particular Board rule is valid.

(2) All requests for declaratory rulings shall be written and mailed to the Board. The request must include the following information:

(a) name and address of petitioner;

(b) statute or rule to which petition relates;

(c) concise statement indicating manner in which petitioner is aggrieved.

(3) If, in the discretion of the Board, the Board deems it appropriate to issue a declaratory ruling, it shall issue such declaratory ruling within sixty days of receipt of the petition.

(4) A declaratory ruling proceeding may consist of written submissions, an oral hearing, or other procedure as may be appropriate in the circumstance of the particular request.

(5) Whenever the Board believes for good cause that the issuance of a declaratory ruling is undesirable, it may refuse to issue such ruling. The Board will notify the petitioner of its decision in writing, stating the reasons for the denial of the declaratory ruling.

(6) For purposes of this rule, the Board may refuse to issue a declaratory ruling for reasons including but not limited to the following:

(a) the subject matter of the request is involved in pending litigation in any state or federal court.

(7) A record of all declaratory ruling proceedings will be maintained in the Board office for as long as the ruling is in effect and for five years thereafter. Rule 930-X-1-.31. Premises Permits.

(1) All veterinary facilities must acquire a premises permit. The owner and all associate veterinarians must be listed on the premises permit.

(2) All licensed veterinarians owning or associated with the premises shall be individually responsible for management of the premises. Short term relief veterinarians without management responsibilities will not be required to be listed on the premises permit.

(3) Premises permits must be displayed within the practice in such a manner as to be easily viewed by the public.

(4) All service agreements for any premises, including after hour emergency agreements and other supportive agreements, must be displayed with phone numbers and addresses within the practice in such a manner as to be easily viewed by the public.

(5) All licensed veterinarians owning or the primary administrative contact veterinarian with the

premises, shall be individually responsible for immediately reporting to the Board any changes, modifications, or terminations of any service agreements.

(6) An applicant for an initial premises permit must allow ample time for the Board to process the premises permit application. When an application, which is not for a renewal or change in ownership or association, requires an evaluation or inspection, the applicant must file a complete application at least 90 days before the permit is needed. All new veterinary facilities must complete a premises permit application and remit the inspection fee along with all required documents to the Board office. Evaluations or inspections will not be scheduled for incomplete premises applications even when the applicant believes that the missing information is minor, incidental, or unimportant. The Board has a limited number of inspectors and to ensure that all applicants receive premises permits timely, the Board will strictly adhere to an inspection schedule. An Inspector/Compliance Officer will contact the veterinarian to schedule an inspection date. Upon meeting or exceeding all mandatory minimum standards the Board will issue a premises permit.

(7) In the event a facility fails to pass an initial premises inspection/evaluation, applicant must correct any deficiencies, complete a new premises permit application, and pay the premises evaluation failure reinspection fee. An Inspector/Compliance Officer will contact the veterinarian to schedule the reinspection. It may be up to 120 days after the Board is notified that the premises are ready for reinspection before the premises are reevaluated.

(8) The application must designate one veterinarian as the primary administrative contact to work with the Board. The administrative contact veterinarian for the facility shall be the individual responsible for ensuring and coordinating administrative compliance with the practice act and the rules of the administrative code. The administrative contact veterinarian is individually responsible for written, telephonic, and electronic communication to and from the Board. This may not be delegated to administrative staff.

(9) Upon meeting the requirements of the practice act and the administrative code, including applicable mandatory minimum standards for facilities, the following types of premises permits are available:

(a) Veterinary or Animal Hospital or Clinic – available only for a facility providing quality examination, diagnostic, and health maintenance services for medical and surgical treatment of animals, including housing and nursing care for animals during illness and convalescence. Veterinarians working out of these facilities may make occasional house or farm calls to treat animals at the owner/client's premises without becoming a mobile clinic when reasonable circumstances prevent an owner/client from bringing an animal to the facility. A Mobile Small Animal Clinic may be permitted as a full-service clinic by meeting or exceeding all mandatory requirements for both full-service and mobile premises;

(b) Specialty Practice or Specialty Clinic – available only for a facility where veterinarians have advanced training in a specialty, are diplomats of an approved specialty college, and provide complete specialty services. These facilities must meet the minimum standards applicable for all facilities in addition to any minimum standards applicable to the specialty;

(c) Central Hospital – available only for a full-service facility, mainly utilized as a referral facility, and providing specialized care, including 24-hour nursing care and specialty consultation on a permanent or on-call basis, and the facility must also meet the requirements of subsection (a) by providing quality examination, diagnostic, and health maintenance services for medical and

surgical treatment of animals, including housing and nursing care for animals during illness and convalescence;

(d) Satellite Clinic – available only for a supportive facility owned by or associated with, by having a service agreement with a permitted veterinary hospital, clinic, or full-service central hospital designated on the premises permit as the primary facility. Veterinarians on the premises permit of the primary facility must verify in the outpatient premises permit application that its outpatient clinic, if offering limited services, has ready access to the primary facility and is located within one hour or 45 miles of the primary facility, and that a veterinarian from the primary facility will be on call during and after the operation of the satellite to render aid, if necessary. Handling includes all aspects of moving an animal from one area to another.
 - 3. Animals awaiting euthanasia shall not be placed in cages or kennels with other breeds or species that are incompatible with the animal in question. The animals shall not be overcrowded in any cage or kennel.
- (g) The CET must have:

 - 1. To assure safe and humane euthanasia technique, a minimum of two persons shall be required for any intravenous injection. One person shall be a CET and one or more persons shall be handler(s). The handler does not have to be a CET but the handler should be trained in human safety and in animal handling techniques.
 - 2. Intraperitoneal injections and Intracardiac injections may be administered by a CET without a handler to unconscious animals.

- (i) Chemical restraint drug: Xylazine, acetylpromazine and other board approved chemical restraint drugs shall be used according to their label instructions. The storage requirements for controlled substances and non-controlled substances shall apply to euthanasia and chemical restraint drugs according to their classification.

- 2. All records shall be filed in chronological order and labeled with the name of the RAEF.
 - 3. Outdated Drugs: Outdated drugs shall be labeled as such and properly disposed of. Outdated drugs shall not be injected into living animals.
 - 4. All records shall be kept for a period of three years from the purchase date of the drug.
